# Introduction

Hello, I am [Scott](#), the founder of BURNY and I'm thrilled to welcome you here. I'd like to introduce you to the "burniest token in crypto" - a distinctive, hyper-deflationary, community-owned MEME token on the Binance Smart Chain. Your investments are important to me and I want to offer you an opportunity that respects you as an investor.

BURNY was born out of frustration with teams creating tokens that deceive investors with lies and deceit. Built on a foundation of honesty and transparency, BURNY is truly UNRUGGABLE. It holds the potential to reach 1000x and more. A MEME token, without the risk of the team failing its community! In fact, I personally invested in BURNY during the Pinksale launch alongside investors. I have experienced the pain of a rugpull and I wanted to create a MEME token that not only burns automatically but is also designed for holders, with a limited supply after a substantial burn. This is BURNY - a fully developed token on the Binance Smart Chain.

BURNY launched on 10 July 2023, whilst we initially focussed on marketing, unexpected results led us to shift our focus towards building an organic BURNY brand and establishing a robust community, that understands the BURNY project in preparation for the upcoming bull run. Let BURNY burn and be part of a crypto opportunity like no other.

BURNY is far from just another cryptocurrency; BURNY represents the epitome of transparency in the crypto world, with its honest, interactive approach and a launch supply of 10,000,000 tokens. This hyper, deflationary token is poised to rewrite the rules of the game. Our contract is renounced & audited, liquidity is locked for an astounding 100 years and with a burn rate of 4%, BURNY burns fast, setting the stage for an incredible 1000x opportunity.

In this whitepaper, we'll take a deep dive into the heart of Burny, exploring its tokenomics and the principles that set it apart in the crypto universe. We invite you to join us on this journey, where transparency meets innovation and where the community drives every decision. BURNY is more than just a cryptocurrency; it's a symbol of reliability, trustworthiness and the limitless potential of reducing the supply to zero.

Come and explore BURNY with us - "The BURNIEST token in CRYPTO" Where the journey to ZERO SUPPLY HAS ALREADY BEGUN! 🔥

# Tokenomics

Launch Supply   Token Symbol   Contract Address

🔥 10,000,000

🔥 \$BURNY

🔥 [0xec6E40cF1CfC7975fB2e78c829B52Ad863566B0d](https://www.bscscan.com/address/0xec6E40cF1CfC7975fB2e78c829B52Ad863566B0d)

Token Distribution

- 🔥 100,000 allocated to the [Pinksale launch](#).
- (29,516) unsold pre-sale tokens were burned to ([dEaD wallet](#)).
- 🔥 Before launching, ALL unallocated tokens were burned.
- 🔥 BURNY launched on Pancakeswap with 68,108 Total supply.

Liquidity

- 🔥 Liquidity is locked for 100yrs using [Pinklock](#) on Pinksale

Buy/Sell Tax = 5%

- 🔥 4% Automatic burn with every trade.
- 🔥 1% [Marketing wallet](#).

Token Launched

- 🔥 10 July 2023

**BURNY** 🔥

THE BURNIEST TOKEN IN CRYPTO 🔥

# Why Burny?

- 🔥 Contract is renounced, audited & verified.
- 🔥 Liquidity is locked for 100yrs.
- 🔥 BURNY is growing organically.
- 🔥 “Burniest token in crypto”. Ask google!
- 🔥 UNRUGGABLE - Founder CANNOT rug project.
- 🔥 Created by 1 person & BURNY is a completed project.
- 🔥 4% Automatic trade burn will send BURNY to ZERO SUPPLY.
- 🔥 Community owns BURNY. Founder is not the owner!
- 🔥 BURNY is for HOLDING not for TRADING!
- 🔥 BURNY token value will increase as the supply decreases.
- 🔥 BURNY will be trading in denominations of 1 unit of BURNY eventually.

# Utilities

I've thoroughly pondered the future utilities of BURNY and to be honest, I question the necessity of constructing a swap or NFT functionality.

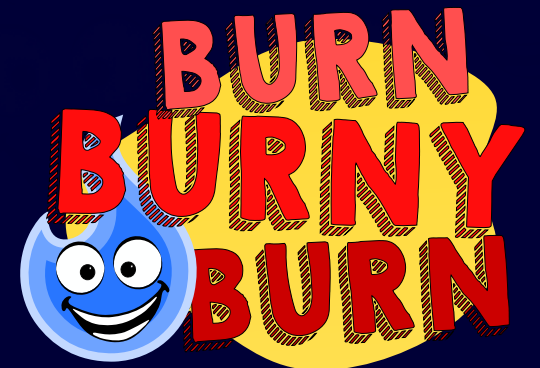

## So let us be honest with each other here...

In reality, these functions often serve as mere commodities, luring investors to projects lacking substantial use cases. To be candid, Pancakeswap boasts a level of security that surpasses any swap we could develop.

NFTs, on the other hand, seem better suited for adoption by AAA gaming studios, capable of integrating robust functionality.

As for staking, it appears more fitting for top-tier projects like ETH, BNB, MATIC... We remain open to utilities that genuinely benefit both the BURNY community and the token itself. Our commitment to considering community input and evaluating facts remains steadfast.

At its core, BURNY is a deflationary meme token, characterized by its unique burn functions. This distinct foundation positions BURNY perfectly for potential unprecedented highs within the crypto community.

THE BURNIEST TOKEN IN CRYPTO 

# Growth/Marketing

I have learned a lot in the past 2x months building BURNY as a brand and investable project for crypto enthusiasts. The importance of social media cannot be underestimated, I have spent a lot on marketing with underwhelming results. This phase cycle in crypto has made me realise that a strong social media presence will be key to our success during the upcoming bull market.

Below are links to our main social media accounts and information into our marketing to date.

## Social media accounts

- 🔥 X (Twitter) - [BSCBurny](#)
- 🔥 Telegram - [BurnyBSCommunity](#)
- 🔥 Tiktok - [BSCBurny](#)
- 🔥 Youtube - [BSCBurny](#)

## Marketing

I will focus more on marketing during the bullrun, this will depend on the strength of the community and how well prepared we are for this, our marketing wallet will fund whatever method we decide as a community and how this will be spent.

Examples of some of the marketing we have done below...

- 🔥 Telegram - BSC Trending/Crypto Jack calls...
- 🔥 Moontok - 3day main page.
- 🔥 Twitter - Influencers/Large Crypto accounts...
- 🔥 Other channels & groups across various platforms

# BURNY is going to ZERO SUPPLY!

## 🔥 Burning mechanism 🔥

BURNY burns 4% of EVERY transfer! That is 4% of every buy/sale/withdrawal/deposit. BURNY burns whenever it moves, BURNY is the perfect deflationary token! BURNY is going to ZERO SUPPLY.

## 🔥 Our journey to ZERO SUPPLY 🔥

This might sound OUTRAGEOUS but I can assure that this is will be an EXCITING journey for BURNY. As our supply decreases and scarcity increases, the value of each token will rise, resulting in less BURNY in circulation. As a deflationary token, BURNY will keep burning to ZERO SUPPLY, this will likely take years, but the fact is... We are going to ZERO SUPPLY with a "Sky is the limit" price potential.

## 🔥 BURNY is built for HODLERS 🔥

BURNY has a limited supply! there are no more BURNY tokens entering our circulation. As of this whitepaper, BURNY has a total supply of less than 60,000 tokens! There are less than 11,000 BURNY in our liquidity pool (every BURNY buy/sell interacts with this pool), If you HODL your BURNY and allow others to trade, this pool will decrease over time, forcing the price to rise. Don't worry about the short-term price action, BURNY is a long-term investment opportunity unlike other memes chasing the short pump, BURNY is unique!

## 🔥 Let's speculate a little here... the year is 2025 🔥

BURNY burns forever, FACT! We are in the middle of the BULLRUN and BURNY has a total supply of 30,000. Do you think the price will be \$0.20 or more towards \$1 or \$10 or even \$100? Eventually in years to come, BURNY will have a supply of 100 or 1 and even 0.0098! Do you think a small investment gamble now is worth it? If you could buy 10x BITCOIN 10 years ago, would you? I'm not comparing BURNY to BITCOIN as BTC is king but I am comparing the potential and opportunity. With a burn mechanism as efficient as this, your price prediction could be sky high and BURNY could still beat it. Don't underestimate this fire as it's going to burn FAST! 🔥🔥🔥

# “UNRUGGABLE” - MUST BE A SCAM!

## 🔥 How is BURNY UNRUGGABLE? 🔥

I have always wanted a MEME token to invest in, I believe everyone should have at least one MEME token in their portfolio. The problem is they are high risk/reward investments. I have experienced a rugpull and it is very damaging to investors. My solution to this issue is BURNY! How? I launched BURNY publically on Pinksale and after I burned everything left outside of investments and liquidity. I invested alongside investors and as the creator of BURNY, there is NO TEAM, Just me (Scott). I don't have a team who rely on payments! BURNY has a community of investors who believe in the project and it's potential. The community control the price action, if BURNY is too succeed, investors need to understand BURNY is for HOLDING, not Trading!

## 🔥 Community genuinely owns BURNY 🔥

As the founder of BURNY, I am not the largest holder, I have about 2000 BURNY spread over 2x wallets. The largest holder is a member of the community, this is how BURNY needs to be to become successful, this is evident in our chart as we are showing similar patterns to larger scale projects. If you are looking for a genuine MEME token that is exempt from exploitation or rugs, then BURNY should be on your shortlist. This is a project that prides itself on it's transparency and honesty. I don't make "Do your own research" #DYOR difficult and I always encourage questions and queries to highlight our integrity as a project that is unique and keeps its promises. If you have any doubts... Join our social media platforms and ask me or the community any questions you might have.

THE BURNIEST TOKEN IN CRYPTO 🔥

# Team? Just me & the community! <sup>V1.0</sup>

X "Twitter"  
[@Scott007h](#)

🔥 My name is [Scott](#) and I am the founder of BURNY 🔥

I am a CRYPTO investor of 3+ yrs and in this time, I have had success and I have had my failures. I am a believer in projects with fundamentals but I also believe there is a place for MEME tokens within CRYPTO as they capture the fun, unpredictable nature of cryptocurrencies perfectly. I am studying to be a full stack developer and I wanted to utilise my skills to create a token that appeals to +90% of investors. BURNY - The perfect DEFLATIONARY HOLD token was born!

🔥 BURNY is a community owned project that does not require a team. WHY? 🔥

Created and renounced, BURNY is a project that proves that a community of investors and believers can be the foundation for success. BURNY does not employ members, all the support for BURNY comes from the community and this is growing at a good, organic rate, which strengthens the confidence in the project for potential investors. The fact that there are no other founding members, purchased BURNY alongside investors on Pinksale and burned everything outside of liquidity and investments means that BURNY is UNRUGGABLE! I am not the largest holder of BURNY, the community is and this means that BURNY will succeed with or without me. As the founder I want BURNY to succeed! I am now an investor like the rest of the community and this enables me to promote BURNY without the fear of the token suddenly losing liquidity or support.

🔥 Our community is the best in CRYPTO, genuinely! 🔥

BURNY was created to be community owned and this is how BURNY will succeed! The community are creating content, paying for promotions and educating crypto through social media platforms. I am really thankful for this trust and support the BURNY community have given me in the last 3 months, I will endeavour to make this a success and to be an ambassador for BURNY for many, many years. The BURNY journey to ZERO SUPPLY has already begun!

# Roadmap

## PHASE 1

- ✓ CONTRACT DEPLOYMENT
- ✓ CONTRACT RENOUNCEMENT
- ✓ SUCCESSFUL PINKSALE LAUNCH
- ✓ PANCAKESWAP LISTING
- ✓ WEBSITE
- ✓ 10+ COINLISTING SITES
- ✓ 100+ HOLDERS
- ✓ \$0.20 BURNY FLOOR PRICE

## PHASE 2

- ✓ CONTRACT AUDIT
- 🔥 COINGECKO LISTING
- 🔥 COIN MARKET CAP LISTING
- 🔥 250+ HOLDERS
- 🔥 \$0.50 BURNY FLOOR PRICE
- 🔥 1ST QUALITY PARTNER
- 🔥 BREAK \$1 HIGH

## PHASE 3

- 🔥 BIG MARKETING
- 🔥 POTENTIAL CEX
- 🔥 500+ HOLDERS
- 🔥 \$1.00 BURNY FLOOR PRICE
- 🔥 2ND QUALITY PARTNER
- 🔥 BREAK \$10 HIGH

🔥 **BURNY roadmap is realistic and dynamic!** 🔥

Our roadmap will adapt to market conditions, this is to ensure that BURNY stays current with very changeable market scenarios. I will continue to consult with the community in every aspect of the project. Targets will be made in conjunction with investors to maximise our potential. I will ensure that our roadmap is realistic and achievable whilst staying challenging.
